Auditor's Report To The Shareholders of El Sewedy Cables Company (An Egyptian Joint Stock Company)

Report on the Financial Statements

We have audited the accompanying consolidated financial statements of El Sewedy Cables Company (an Egyptian Joint Stock Company) which comprise the consolidated balance sheet as at 31 December 2009, and the consolidated income statement, statement of changes in equity and statement of cash flows for the financial year then ended, and a summary of significant accounting policies and other explanatory notes.

Management's Responsibility for the Financial Statements

These consolidated financial statements are the responsibility of Company's management. Management is responsible for the preparation and fair presentation of these consolidated financial statements in accordance with the Egyptian Accounting Standards and in the light of the prevailing Egyptian laws, management responsibility includes, designing, implementing and maintaining internal control relevant to the preparation and fair presentation of consolidated financial statements that are free from material misstatement, whether due to fraud or error; management responsibility also includes selecting and applying appropriate accounting policies; and making accounting estimates that are reasonable in the circumstances.

Auditor's Responsibility

Our responsibility is to express an opinion on these consolidated financial statements based on our audit. We conducted our audit in accordance with the Egyptian Standards on Auditing and in the light of the prevailing Egyptian laws. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the consolidated financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the consolidated financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the consolidated financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the consolidated financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the consolidated financial statements.

Hazem Hassan

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the consolidated financial statements.

Opinion

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the consolidated financial position of El Sewedy Cables Company as of 31 December 2009, and of its consolidated financial performance and its cash flows for the year then ended in accordance with the Egyptian Accounting Standards and the Egyptian laws and regulations relating to the preparation of these consolidated financial statements.

Report on Other Legal and Regulatory Requirements

The consolidated financial information included in the Board of Directors' report, prepared in accordance with Law No. 159 of 1981 and its executive regulations, is in agreement with the Company's books of account.

EL SEWEDY CABLES COMPANY

Notes to the consolidated financial statements - 31 December 2009

1. Company background

El Sewedy Cables Company ("the Parent Company") is an Egyptian Joint Stock Company, established under the Investment Incentives and Guarantees Law No. 8 of 1997 and was registered in the commercial registration under No. 14584 on 1 September 2005. The Company's purpose is to establish and operates a production facility for power cables, transformers, terminators, joint accessories, copper and aluminum terminators either coated or not coated and PVC production. In addition to designing, building, managing, operating and maintaining power generation units and power nets. The duration of the company is 25 years starts from the date of its registration in the commercial register.

The consolidated financial statement includes holding company and its affiliates.

2. Basis of preparation

Statement of Compliance

The consolidated financial statements have been prepared in accordance with Egyptian Accounting Standards.

The consolidated financial statements were approved by the Board of Directors on 30 March 2010 .

Basis of measurement

The financial statements have been prepared on the historical cost basis except for financial derivatives measured at fair value and available for sale investments. The methods used to measure fair values are discussed further in note no. 33 below.

Functional and presentation currency

These consolidated financial statements are presented in Egyptian Pound, which is the company's functional currency.

Use of estimates and judgments

The preparation of the financial statements in conformity with Egyptian Accounting Standards requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expenses. Estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognized in the period in which the estimates are revised and in any future periods affected.

In particular, information about significant areas of estimation uncertainty and critical judgments in applying accounting policies that have the most significant effect on the amounts recognized in the financial statements is included in the following notes:

- Note (6) – Fixed assets
- Note (18) – Provisions
- Note (21) – Deferred taxes
- Note (23) – Contract revenue
- Note (31) – Business combinations
- Note (32) – Shares based payment
- Note (35) – Valuation of financial instruments

EL SEWEDY CABLES COMPANY

Notes to the consolidated financial statements – 31 December 2009

3. Significant accounting policies

The accounting policies set out below have been applied consistently to all periods presented in these consolidated financial statements, and have been applied consistently by Group entities.

3-1 Basis of consolidation

Subsidiaries

Subsidiaries are entities controlled by the Group. Control exists when the Group has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities. In assessing control, potential voting rights that presently are exercisable are taken into account. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases.

Acquisitions from entities under common control

Business combinations arising from transfers of interests in entities that are under the control of the shareholders that control the Group are accounted for as of the acquisition date. The assets and liabilities acquired are recognized at the carrying amounts recognized previously in the Group's controlling shareholder's consolidated financial statements.

Affiliated companies

Affiliated companies are entities influenced by the Group. Influence exists when the Group has the influence on the financial and operating policies of an entity but do not has the control.

Transactions eliminated on consolidation

Intra-group balances, and any unrealized income and expenses arising from intra-group transactions, are eliminated in preparing the consolidated financial statements.

3-2 Foreign currency

Foreign currency transactions

Transactions in foreign currencies are translated to the respective functional currencies of Group entities at exchange rates at the dates of the transactions. Monetary assets and liabilities denominated in foreign currencies at the reporting date are retranslated to the functional currency at the exchange rate at that date. Foreign currency differences arising on retranslation are recognised in the conciliated profit or loss.

Foreign Operations

The assets and liabilities of foreign operations are translated to Egyptian Pound at exchange rates at the reporting date. The income and expenses of foreign operations are translated to Egyptian Pound at exchange rates at the dates of the transactions. Foreign currency differences arising on retranslation are recognised in a separate item under the equity in the conciliated balance sheet.

EL SEWEDY CABLES COMPANY
Notes to the consolidated financial statements – 31 December 2009

3-3 Fixed assets

Recognition & measurement

Items of fixed assets are measured at cost less accumulated depreciation and accumulated impairment losses.

Cost includes expenditure that is directly attributable to the acquisition of the asset. The cost of self constructed assets includes the cost of materials and direct labor, any others costs directly attributable to bringing the asset to a working conditions for its intended use. When parts of an item of fixed assets have different useful lives, they are accounted for as separate items of fixed assets

Subsequent costs

The cost of replacing part of an item of property, plant and equipment is recognised in the carrying amount of the item if it is probable that the future economic benefits embodied within the part will flow to the Group and its cost can be measured reliably. The carrying amount of the replaced part is derecognised. The costs of the day-to-day servicing of property, plant and equipment are recognised in the conciliated profit or loss as incurred.

Project under progress

Project under progress added to fixed assets and start to be depreciated when it become intended to use.

Depreciation

Depreciation is recognised in profit or loss on a straight-line basis over the estimated useful lives of each part of an item of property, plant and equipment. The estimated useful lives for the current and comparative periods are as follows:

Buildings	8 -50 years
Machinery and equipment	5-10 years
Furniture	4 -17 years
Vehicles	5-8 years

Depreciation methods, useful lives and residual values are reviewed at each reporting date.

3-4 Financial instruments

Non-derivative financial instruments

Non-derivative financial instruments comprise investments in equity and debt securities, trade and other receivables, cash and cash equivalents, loans and borrowings, and trade and other payables.

The financial assets and liabilities are recognised in the balance sheet when the company and it's subsidiaries become side in the financial instruments agreement. The initial recognition with the financial instruments by its fair value and for trade and other receivables and trade and other payables by its nominal value.

EL SEWEDY CABLES COMPANY

Notes to the consolidated financial statements – 31 December 2009

Cash and cash equivalents comprise cash balances and call deposits for a period more than three months which form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of the statement of cash flows.

Derivative financial instruments

The Group doesn't hold derivative financial instruments for speculative purposes. The hedged instrument is recognised initially at fair value; attributable transaction costs are recognised in profit or loss when incurred. Subsequent to initial recognition, derivatives are measured at fair value.

3-5 Available-for-sale financial assets

The Group's investments in equity securities are classified as available-for-sale financial assets. Subsequent to initial recognition, they are measured at fair value (if quoted) and changes therein, other than impairment losses, and foreign exchange gains and losses on available-for-sale monetary items are recognized directly in equity. When an investment is derecognized, the cumulative gain or loss in equity is transferred to income statement. Investments which are not listed at stock exchanges are measured at historical value after reducing any impairment losses.

3-6 Investment in treasury bills, Central Bank certificates and investment fund

Where the Group has the positive intent and ability to hold treasury bills, Central Bank certificates and investment fund to maturity, then they are classified as held-to-maturity. Held-to-maturity investments are measured at amortized cost using the effective interest method, less any impairment losses. The book value for these investments (amended cost) becomes equal to the nominal value at the maturity when redeemed less any impairment.

3-7 Other assets

Goodwill

Goodwill represents the excess of the cost of the acquisition over the Group's interest in the net fair value of identifiable assets, liabilities and contingent liabilities of the acquirer. When the excess is negative, it is recognized immediately in profit or loss.

Intangible assets

Intangible assets that are acquired by the Group, which have finite useful lives, are measured at cost less accumulated amortization and accumulated impairment losses.

3-8 Inventories

Inventories are valued at the lower of cost and net realizable value. Net realizable value is the estimated selling price in the normal course of business minus the estimated cost for completion and any selling costs. Net realizable value of the quantity of inventory held to satisfy firm sales is based on the contract price. If the sales are for less than the inventory quantities held, the net realizable value of the excess is based on general selling price. Provision arises from firm sales contracts in excess of inventory quantities held or from firm purchase contracts.

Cost of raw materials is determined using the weighted average method. In case of finished goods and work in process, cost includes direct material and direct labor cost and an appropriate share of production cost.

EL SEWEDY CABLES COMPANY

Notes to the consolidated financial statements – 31 December 2009

3-9 Impairment

Financial assets

A financial asset is assessed at each reporting date to determine whether there is any objective evidence that it is impaired. A financial asset is considered to be impaired if objective evidence indicates that one or more events have had a negative effect on the estimated future cash flows of that asset.

Individually significant financial assets are tested for impairment on an individual basis. All impairment losses are recognised in profit or loss.

An impairment loss is reversed if the reversal can be related objectively to an event occurring after the impairment loss was recognized.

Non-financial assets

The carrying amounts of the Group's non-financial assets, other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. An impairment loss is recognised if the carrying amount of an asset or its cash-generating unit exceeds its estimated recoverable amount. Impairment losses are recognised in profit or loss.

An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss had been recognised.

3-10 Provisions

Provisions are recognized when the Group has a legal or constructive obligation as a result of past event, and it is probable that an outflow of economic benefits will be required to settle the obligation and the liability can be reliably estimated. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market adjustments of the time value of money and the risks specific to the liability. The provisions are reviewed at each balance sheet date and amended, when necessary, to represent the best current estimate.

3-11 Interest bearing borrowings

Interest bearing borrowings are recognized initially at fair value less attributable transaction costs. Subsequent to initial recognition, interest bearing borrowings are stated at amortized cost with any difference between cost and redemption value been recognized in the income statement over the period of borrowing on an effective interest basis.

3-12 Dividends

Dividends are recognized as a liability in the financial period in which the dividends are approved by the shareholders general meeting.

3-13 Treasury shares

When share capital recognized as equity is repurchased, the amount of the consideration paid, including directly attributable costs, is recognized as a deduction from equity. Repurchased shares are classified as own shares and are presented as a deduction from total equity. Gain or losses arising from sale of treasury shares are included in equity in the consolidated financial of statement.

EL SEWEDY CABLES COMPANY

Notes to the consolidated financial statements – 31 December 2009

3-14 Recognition of revenue

Sales revenue

Revenue from sale of goods is measured at the fair value of the consideration received or receivable, net of returns and allowances, trade discounts and volume rebates. Revenue is recognized when the significant risks and rewards of ownership have been transferred to the buyer, recovery of the consideration is probable, the associated costs and possible return of goods can be estimated reliably, and there is no continuing management involvement with the goods. Risk and rewards of ownership are transferred when goods are received at the customer's warehouse; however, for some international shipments transfer occurs upon loading the goods onto the relevant carrier.

Revenue of construction contracts

Revenues from construction contracts are recognized using the percentage-of-completion method. The percentage-of-completion is measured by correlating costs incurred to date to estimated total costs for each contract.

Contract costs include all direct material, equipment, labor, subcontract and those indirect costs related to contract performance, such as indirect labor and maintenance costs. General and administrative costs allocable to particular contracts are charged to contract costs. All other general and administrative costs are charged to expense as incurred. Changes in job performance, job conditions, estimated profitability and final contract settlements may result in revisions to costs and income and are recognized in the period in which the facts requiring such revisions become known.

Provision for estimated losses including allocable general and administrative expenses on uncompleted contracts is made in the period in which such losses are determined. Claims for additional contract revenue are recognized when realization is assured and the amount can be reasonably determined.

Investment income

Income from available-for-sale investments are recognized when the Group's right to the income is established.

Credit interest

Credit interest is recognized in the income statements according to the effective interest rate method.

3-15 Segment reporting

A segment is a distinguishable component of the Group that is engaged either in providing related products or services (business segment), or in providing products or services within a particular economic environment (geographical segment), which is subject to risks and rewards that are different from those of other segments. The Group's primary format for segment reporting is based on business segments.

3-16 Expenses

Operating expenses, selling and distribution, general administrative expenses and other expenses are recognized using the accrual basis of accounting and as such are recognized in the income statement as incurred.

EL SEWEDY CABLES COMPANY

Notes to the consolidated financial statements – 31 December 2009

3-17 Employees benefits

Social Insurance Scheme

The Group contributes in the governmental social insurance system for the benefits of its employees according to the social insurance Law No. 79 of 1975 and its amendments. The Group's contributions are recognized in income statement using the accrual basis of accounting. The Group's obligation in respect of employees' pensions is confined to the amount of the aforementioned contributions.

Share based payments

The grant date fair value of options granted to employees is recognized as expense, with a corresponding increase in equity, over the period that the employees becomes unconditionally entitled to the options

3-18 Income tax

Income tax in the parent and its subsidiaries' includes income tax for the current period and the deferred tax. Income tax is recognized in the consolidated income statement except for the income tax related to the equity items which is stated directly in the equity in the consolidated financial statements.

Income tax is recognized on net taxable income using tax rates enacted at the consolidated financial statements date and in addition to any tax differences related to the previous years.

Deferred income tax is provided using the balance sheet liability method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realization or settlement of the carrying amount of assets and liabilities, using tax rates enacted or substantively enacted at the consolidated balance sheet date.

A deferred tax asset is recognized only to the extent that it is probable that future taxable profits will be available against which the asset can be utilized. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realized.

3-19 Earnings per share

Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the company by the weighted average number of ordinary shares outstanding during the period.

4. Fair Value

A number of the group accounting policies and disclosures require the determination of fair value, for both financial and non financial assets and liabilities. Fair values have been determined for measurement and/ or disclosure purposes based on the following methods.

Fixed assets

The fair value of the fixed assets recognised as a result of a business combination is based on market values. The market value of fixed assets is the estimated amount for which an asset could be

EL SEWEDY CABLES COMPANY
Notes to the consolidated financial statements – 31 December 2009

exchanged on the date of valuation between a willing buyer and a willing seller in an arm's length transaction after proper marketing wherein the parties had each acted knowledgeably, prudently and without compulsion.

Forward raw materials contracts

The future contracts are recorded at their fair value and the changes in the fair value are charged to the consolidated income statement.

Investments in equity instrument

Fair values is based on quoted market prices without any deduction for transaction costs except for the unquoted equity security which is stated at cost less impairment loss

Receivables

The fair value receivables is estimated as the present value of future cash flows, discounted at the market rate of interest at the reporting period

5. Financial risk management

The Group has exposure to the following risks from its use of financial instruments:

Credit risk
Liquidity risk
Market risk.

This note presents information about the Group's exposure to each of the above risks, the Group's objectives, policies and processes for measuring and managing risk, and the Group's management of capital. Further quantitative disclosures are included throughout these consolidated financial statements.

The Board of Directors has overall responsibility for the establishment and oversight of the Group's risk management framework. The Board is responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyse the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through its training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the board of directors.

Credit risk

Credit risk is the risk of financial loss to the Group if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Group's receivables from customers and investment securities.

Liquidity risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's approach to managing liquidity is to ensure, as far as possible, that it will always

EL SEWEDY CABLES COMPANY

Notes to the consolidated financial statements – 31 December 2009

have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

Currency risk

The Group is exposed to currency risk on sales, purchases and borrowings that are denominated in a currency other than the respective functional currencies of Group entities, primarily the euro and U.S. Dollars. The management of the company reduces this risk by achieving sales in foreign currencies which is higher than in local currency during the periods presented.

Interest rate risk

All the Group investments and borrowing are based on Libor rates or Egypt Central Bank rates plus a fixed percentage to reduce risk.
